Harriman Drive  
Messenger Lane  
Old House Lane  
Sloanes Beach Road  
Tibbits Lane  
Woodland Drive

# REGULATIONS

## SANDS POINT WATER DEPARTMENT

### SPRINKLER SYSTEMS AND POOLS

#### Automatic Irrigation Systems

The theme this year is water conservation. The Department of Environmental Conservation has requested a 15 percent reduction in water consumption over the next three years. Irrigation systems must not be operated until May 10<sup>th</sup> and should be turned off by October 30<sup>th</sup>. Full cooperation from every resident is needed to achieve this goal. The only exception to this rule will be for new landscaping. To obtain authorization to water before May 10<sup>th</sup> or after October 30<sup>th</sup>, contact the Water Department at (516) 883-3491 for a special permit.

Please notice the zone in which you reside, together with the days and hours that your lawn sprinkler system may be operated (See other side for details).

#### Aboveground Watering

If you water with garden hoses with sprinklers or another method, your watering days are the same as the underground sprinkler systems, but the hours are **8:00 A.M. to 11:00 A.M. OR and 4:00 P.M. to 7:00 P.M.** Choose either period, you may not water in both time slots (See other side for the days that you may water)

Residents may operate one system only, either an aboveground or an underground system, not both. **REMEMBER, THE OBJECT IS TO CONSERVE WATER.**

**PLEASE NOTE:** Residents who water lawns on days or hours other than those established for their residential water zone will be subject to a warning. If a second violation occurs, the sprinkler water service will be turned off. At that time, a notice will be placed in your mailbox requiring a \$500.00 turn-on fee to restore service.

The Sands Point Police Department and Code Enforcement will enforce these essential requirements.

#### SWIMMING POOL INFORMATION

Swimming pool owners are prohibited from emptying and refilling their swimming pools unless a special permit is issued by the Village. If major structural repairs are required, the owner or the swimming pool service company must file a written request with the Village for permission to drain and refill the pool. Any permitted drainage must be on one's property, not onto streets or the property of others.
